

The Best Cough Drops Are Drops of Ayer's Cherry Pectoral.

Sixty years ago physicians first used Ayer's Cherry Pectoral, and ever since then it has been the standard cough remedy all over the world. Thousands of families, in Europe, Asia, Africa, and America, keep a bottle of it in the house ready for an emergency.

Ayer's Cherry Pectoral

controls the spasmodic efforts of coughing, relieves the congestion in the throat, quiets the inflammation in the bronchial tubes, and prevents the lungs from becoming involved,

There are many substitutes and imitations. Be sure you get Ayer's Cherry Pectoral. It contains no narcotic or poison of any kind.

ters and for the remainder of the vovage it was almost as if we were sailin a land locked bay. The spirits of the company rose as the billows fell, and each day seemed to pass more pleasantly and rapidly than the last. "Capt. Zeeder and the other officers

of the Siberia contributed in every possible way, not only to the comfort but to the entertainment of the party, while Mr. McClellau, Mr. Babbitt, Mr. Fitts and Mr. Isenberg, the first named as the official and the last three as the unofficial representatives of our Ha-waiian hosts, were indefatigable in their hospitable attentions. It was under their direction that a ball was given on the broad upper deck of the Siberia on Friday evening, which was as gay as the gayest could desire. And it was their leadership which made a success of the ship sports which kept the whole company in the highest spirits all day Saturday. A handome array of prizes had been secured for the winners of the various contests and these were presented in the evening by the Dean and the wit of your delega-tion, Mr. Bartholdt, of St. Louis, in a speech which was a fitting climax to the day's festivities. On Sunday divine service was conducted in the morning by Rev. J. C. Butcher, a Methodist missionary on the way to his field of labor in India, and the remainder of the day was spent by most of the passengers at the writing tables getting ready the letters that are to go hack home by the next steamer.

TAKING OF TESTIMONY IS MADE EASIER

The taking of depositions in Great Britain in civil and commercial cases will hereafter be attended with less difficulty than has been the case in the past, Governor Frent vesterday received a letter from the Secretary of the Interior, enclosing letters from the Secsador, in which the statement was made that testimony in civil and commercial cases may now be taken without ap-plying to the Bertish courts. It will be unnecessary to employ an agent to Miss Taylor, Mrs. Taylor, Misses Bort-get a court order to take tectamony, as fold: (2), Miss Wood the order will be issued on application Per str. LAWMAKERS IN THE REAL SWIM

(Continued From Tage One.)

so he bought suspenders for each pair After Representative Bartholdt of St. Louis was thrust ashore by a good-sized billow and, he had donned his eils again, he was invited to the lanal of the Moana and asked if he would not like a little cup of tea with a lemon on the side. Mr. Bartholdt, who is of German extraction, swallowed a lumin in his throat and very deferentially respended that if tea was the custom of the country, he was like a Roman, but, he added. "Please remember I'm from Missouri."

Representative Reeder, a big man from Kaneas, where this year they pair off millions upon millions of dollars off millions upon millions or dollars worth of mortgages because of the good crops, was taking his first swim in any ocean. He shouted from the water: "Never anything like this in Kansas. When we surf over there, we do it in a horse trough."

It was a joily crowd of Congressmen who left the Young Hotel at 3 p. m. and went to the Moann. Unfortunately for the enjoyment of the visitors, the docean surface must have known the doughty legislative fighters were com-ing, for it simply laid down and col-lapsed. It was a glassy, smooth floor that afforded almost no opportunity canoeing, and there was general disappsintment, but after a few had gotten into the water and kicked about as if they were in the old boytime swimmin' hole back home, some hazy billows came rolling in and seven or eight canoes were taken out, each laden with Congressmen, their wives and daugh-ters and sons. Some wore red handker-chiefs about their heads to keep the sun off bald spots. The canoeing was a delight even if the outriggers did not race toward shore at the usual express

speed.

Delegate Kuhio, who is generally known among the Congressmen as "Prince," and is regarded with the warmth of true fellowship by all, took a bunch of colleagues out in a canoe. They posed first for their photograph, and each promises to paste a copy inside the lid of his desk this winter, so that these the weather fells helow yerro when the weather falls below zero in Washington, he can gaze upon the picture and think only good things of Hawaii nei.

HOLLYDAY COMES FOR INSPECTION

struction. Admiral Hollyday and Mr. Smith will make an early inspection of the work in which they are both interested, and as the drydock people have their dredgers and other material assembled in San Francisco, it is expected that excavation work will com-mence within thirty days and be in full swing in sixty days.

Admiral Hollyday, who made an inspection of the naval station site some months ago, is back again to more defi-

months ago, is back again to more den-nitely determine upon the character of some of the work mapped out. He will make a study of how far the money appropriation will go toward develop-ing the station. There are four hun-dred thousand dollars available for buildings now and two hundred thou-sand dollars for development, to in-clude the laying of railroad tracks, building of wharves, etc. On the Adwork There is no immediate necessity of beginning construction of buildings, as the channel dredging has not pro-gressed far enough. It is planned to gressed far enough. It is panned to that, when the drydock is completed, the channel and harbor will be dredged

and the naval station begin its active duties. And this will all be ready in thirty-two months.

The fact that Admiral Hellyday is making a second trip here so soon after his first inspection means that the navy department is ready to make the dir fly in more senses than one. The money for development is now available and fact that so many Congressmen are now on the ground that they may have ex-plained to them by Admiral Hollyday when they visit the harbor temorrow, the whole plan of the naval station

will have a peculiar significance. The importance of the proposed station will doubtless appeal to the Congressmen, as many have already taken a keen interest in the long-distance views they ave had of Fort Ruger at Diamond Hend. As the Siberia came into the harbor

yesterday Mr. Dillingham pointed to a smudge of black smoke down Pearl Harbor way and explained to Admiral Hollyday that it came from the dredger which is now working on the Pearl Harbor entrance bar.
